For Immediate Release – Tony Fleming, the well-known boat builder who created the highly respected line of Fleming Yachts, has recently released a number of DVDs documenting his 20,000 mile voyage aboard *Venture*, his personal Fleming 65. While Fleming is best known for the development of the Fleming 55, 65 and 75 motoryachts, he has turned over the day-to-day operation of his boat building business to his management team that includes his daughter, Nicky Fleming, his nephew, Adi Shard and his right hand man, Duncan Cowie. Before starting Fleming Yachts in 1986, Fleming worked for American Marine, the builder of Grand Banks, for 25-years.

Since 2005 Fleming has cruised *Venture* along the West Coast from Alaska to Mexico, from Central America to the Galapagos Islands, through the Panama Canal up the East Coast of the U.S. and finally completing the “Down East Great Loop” from New York to the St. Lawrence Seaway and returning to the mid-Atlantic states via Nova Scotia and New England.

Documenting each part of his 20,000 mile voyage, Fleming has produced a series of ten DVDs:

Venture Story – See *Venture* being built in Taiwan and join Tony Fleming during his first cruise along the West Coast of the U.S. and Mexico.

Inside Passage – *Venture* embarks on an exciting 2300-mile journey from British Columbia to Juneau, Alaska and back.

Vancouver to La Paz – *Venture* cruises British Columbia’s Broughton Islands and then serves as an escort vessel for a 50-vessel flotilla cruise from San Diego to La Paz.
